

Meltingpot Bridge Table | Commission Process

Commissioning a *Meltingpot* in a bespoke palette is possible for sizes 320cm in length and above. Guidance is welcomed in the form of mood boards, interior shots, favourite paintings, and other items of inspiration. These references are then synthesised and applied to a spontaneous composition of current materials. The final result is a collision of chance and heartfelt intuition. It is important to remain open to the surprises offered by the material.

Bridge tables are constructed from 3 sheets of pressed material. The first sheet is sent as an example indicating the overall direction of the palette. From there, minor adjustments may be possible. Given the limitations of our material stock, a total reworking of the palette is unfortunately not achievable. Should the match be incompatible, the order is cancelled and deposit withheld.
